WHY CHOOSE ROLEYSTONE CC?

THE MYSTERY EXPLAINED
MOVING TO YEAR 11

- Parents who have children moving from Year 6 to 7 struggle with the move and all have a few things in common...
  - They want the best for their child
  - They do not want to disadvantage their child
  - They don’t want to make a mistake with this decision
PARENTS AS PARTNERS

• Believe it or not... Research shows, you are the one the students listen to...
• Things have changed... considerably
• I want you to base your decision on facts, not hearsay
WHAT ARE THE OPTIONS?

1. Stay at Roleystone CC until the end of Year 10
2. Move to Kelmscott SHS into GATE
3. Move to Lesmurdie SHS into LEAP
4. Move to Lesmurdie SHS general enrolment
5. Move to a Private school
6. Move elsewhere
1. PRIVATE V PUBLIC

- Google for yourself
- The articles change daily
- Public v Private Schools
You might be surprised to learn that, despite an assumption that a private school education ultimately leaves your child better off, multiple studies have found that the school your child attends has no impact on their academic achievements. In fact, a socio-economic status was the key indicator in most of the studies as to whether a child would perform well at school, along with associated factors such as the number of books in the household and whether the child’s parents completed year 12.

KEY POINTS

• Public school students regularly outperform their Private school counterparts at the end of their first year of Uni
• Private School students have a higher drop out rate at the end of the first year of Uni
• Public schools provide education for all and have outstanding pastoral care options
KEY POINTS

• Our local Private School options do not perform in general much better than us, even though there has been a groundswell of movement to these schools in the past.
2. Roleystone CC v Other Schools

WHY WAIT UNTIL YEAR 11?

• Maturity
• Avoid the transition dip
• Have more of an idea of which school fits them better for their Year 11 and 12 studies
• Testimonials
• STEM
STEM 2016

• Outstanding results
  – (About 17 A’s in Maths alone)
  – Going beyond the curriculum
• Building a program from the bottom up
• Students teaching teachers!
STEM 2017 and Beyond

• Year 7 and 8 in 2017
• Aiming for Year 5 and 6 in 2017
• Academic extension program in 4-6 in 2017
• Continue the roll out into the future
