

Current COVID Rules (as at 21/6/22)

1. Does the Child have COVID?

If YES, then they must isolate at home for 7 days.

If NO, then they can come to school as long as they remain asymptomatic. Please test regularly and stay at home if symptomatic.

2. Is there a case of COVID at home?

If YES then...

- i. Has the child had COVID in the past 12 weeks?
 - a. If yes, then the child can still come to school with no restrictions.
 - b. If no, the child can come to school if asymptomatic, must test negative each day and must wear a mask if in Secondary.

If NO, then they can come to school as long as they remain asymptomatic. Please test regularly if symptomatic.

3. Has the child been isolating for 7 days?

If YES then...

- i. If they are asymptomatic then they can return to school with no restrictions.
- ii. Children are not required to test negative to return (as they may still have the virus in their system but will not be infectious).
- iii. Children may still have a dry intermittent cough and can return to school if this is the case.
- iv. Children are not required to wear a mask on return to school.

If NO then...

- i. If they are required to isolate, they must remain in isolation for the full 7 days.
- ii. If they are not required to isolate then they can come to school as long as they remain asymptomatic. Please test regularly if symptomatic.

4. Does the child have flu like symptoms (except a dry intermittent cough as above when returning from COVID)?

- i. If yes then they should remain at home.
 - a. If they have not had COVID, they should test regularly and Rapid Antigen Tests (RATs) are available from school if required.
 - b. If they have had COVID in the past 12 weeks, they should also test (as COVID can be contracted again within the 12 weeks). If they test negative then they should still remain home as sick children should not come to school.
- ii. If NO then they should be coming to school.
